

SPECIFIC PHYTOSANITARY GUARANTEES NEEDED FOR EXPORT TO RUSSIAN FEDERATION

1. Tubers of *Solanum tuberosum* L. intended for planting

Quarantine Harmful Organism (HO)	EU Status	Covered by EU Plant Passport	Movement Options
I. Quarantine objects absent in the territory of the Russian Federation			
Plant pests			
Andean <i>Premnotypes</i> spp	Regulated by the Plant Health Directive 2000/29/EC - Annex I AI – Not present in EU	x	
<i>Epitrix cucumeris</i> (Harris)	Regulated by emergency measures 2012/270/EU. Absent in EU except for demarcated areas in Portugal	x	movement from demarcated area permitted after decontamination
<i>Epitrix tuberis</i> Gentner	Regulated by emergency measures 2012/270/EU Absent in EU	x	movement from demarcated area permitted after decontamination
Fungous causative agents of plant diseases			
<i>Thecaphora solani</i> Thirum et O'Brien. (= <i>Angiosorus solani</i> Thirum et O'Brien.)	Regulated by the Plant Health Directive 2000/29/EC - Annex I AI – Not present in EU	x	
Viral causative agents of plant diseases			
Potato Andean latent tymovirus	(Andean potato latent virus) Regulated by the Plant Health Directive 2000/29/EC - Annex I AI – Not present in EU	x	
Potato Andean mottle comovirus	(Andean potato mottle virus) Regulated by the Plant Health Directive 2000/29/EC - Annex I AI – Not present in EU	x	
Potato T trichovirus	(Potato virus T) Regulated by the Plant Health Directive 2000/29/EC - Annex I AI – Not present in EU	x	
Potato yellowing alfamovirus	(potato yellowing virus) Regulated by the Plant Health Directive 2000/29/EC - Annex I AI – Not present in EU	x	
Nematode causative agents of plant diseases			
<i>Globodera pallida</i> (Stone) Behrens	Regulated by the Plant Health Directive 2000/29/EC - Annex I All – Present in some MS of EU. Spread and introduction is banned. Annex I B (PZ) – Absent in certain PZ.	x	Movement of tubers permitted from PFPS (field).

	Regulated by control Directive 2007/33/EC		
Columbian <i>Meloidogyne chitwoodi</i> Golden et al	Regulated by the Plant Health Directive 2000/29/EC - Annex I All – Present in some MS of EU. Spread and introduction is banned.	x	Movement of tubers permitted from PFPP & PFA. Inspection and sampling of the tubers after harvest
II. Quarantine objects, stenotopic in the territory of the Russian Federation			
Plant pests			
<i>Phthorimaea operculella</i> Zell.	Not regulated in EU. EPPO indicates pest is present in a few MS		
Fungous causative agents of plant diseases			
<i>Synchytrium endobioticum</i> (Schilb.) Percival	Regulated by the Plant Health Directive 2000/29/EC - Annex I All – Present in some MS of EU. Spread and introduction is banned. Regulated by control Directive 69/464/EC	x	
Bacterial causative agents of plant diseases			
<i>Ralstonia solanacearum</i> (Smith) Yabuuchi et al.	Regulated by the Plant Health Directive 2000/29/EC - Annex I All – Present in EU- Spread and introduction is banned. Regulated by control Directive 98/57/EC	x	Movement permitted from PFPP or PFA.
Nematode causative agents of plant diseases			
<i>Globodera rostochiensis</i> (Woll.) Behrens.	Regulated by the Plant Health Directive 2000/29/EC - Annex I All – Present in some MS of EU. Spread and introduction is banned. Regulated by control Directive 2007/33/EC	x	Movement of tubers permitted from PFPS (field).

2. Plants of *Prunus* L. intended for planting

Quarantine Harmful Organism (HO)	EU Status	Covered by EU Plant Passport	Movement Options
I. Quarantine objects absent in the territory of the Russian Federation			
Plant pests			
<i>Conotrachelus nenuphar</i> Hb.	Regulated by the Plant Health Directive 2000/29/EC - Annex I AI – Not present in EU	x	
<i>Ceratitis capitata</i> (Wied.)	Not regulated in EU but according to EPPO host commodity = fruit of <i>Prunus</i> . Present in some MS.		
<i>Pseudaulacaspis pentagona</i> (Targ.-Toz.)	Not regulated in EU. According to EPPO present in some MS.		
<i>Rhagoletis pomonella</i> Walsh.	Regulated by the Plant Health Directive 2000/29/EC - Annex I AI – Not present in EU. Minor pest of <i>Prunus</i> and <i>Prunus</i> plants are not considered a host commodity by EPPO.	x	
<i>Popillia japonica</i> Newm.	Regulated by the Plant Health Directive 2000/29/EC - Annex I All – Spread and introduction is banned. According to EPPO only present in Portugal (Azores).	x	
Fungous causative agents of plant diseases			
<i>Phymatotrichopsis omnivora</i> (Duggar.) Henne-bert (<i>Phymatotrichum omnivorum</i> (Duggar))	Minor pest of <i>Prunus persica</i> . Not regulated in EU. According to EPPO this HO is not present in EU.		
Viral causative agents of plant diseases			
Peach latent mosaic viroid	Not regulated in EU. According to EPPO host commodity = plants for planting of <i>Prunus persica</i> . Present in some MS.		
Cherry rasp leaf nepovirus	(Cherry rasp leaf virus(American)) Regulated by the Plant Health Directive 2009/29/EC - Annex I AI – Not present in EU	x	Annex IVAI (outside Union)(point 23.2) Movement of plants permitted if derived from virus free material or officially certified Movement of

			plants permitted if place of production is symptom free.
Peach rosette mosaic nepovirus	(Peach rosette mosaic virus) Regulated by the Plant Health Directive 2000/29/EC - Annex I AI – Not present in EU	x	
Nematode causative agents of plant diseases			
<i>Globodera pallida</i> (Stone) Behrens	Regulated by the Plant Health Directive 2000/29/EC - Annex I All – Present in some MS of EU. Spread and introduction is banned. Annex I B (PZ) – Absent in certain PZ. Regulated by control Directive 2007/33/EC	x	Movement of plants permitted from PFPP.
II. Quarantine objects, stenotopic in the territory of the Russian Federation			
Plant pests			
American <i>Hyphantria cunea</i> Drury	Not regulated in EU. According to EPPO <i>Hyphantria cunea</i> Drury present in some MS.		
<i>Grapholita molesta</i> Busck.	Not regulated in EU. According to EPPO present in some MS.		
Western (Californian) <i>Frankliniella occidentalis</i> Perg.	Can be a pest of plum tree. Not regulated in EU. According to EPPO present in EU.		
Californian <i>Quadrastipidiotus perniciosus</i> Comst.	Not regulated in EU. According to EPPO present in some MS.		
<i>Lymantria dispar</i> L. (Asian race)	Not regulated in EU. Asian race not present in EU.		
<i>Carposina niponensis</i> Wlsgh.	Regulated by the Plant Health Directive 2000/29/EC - Annex II AI –Not present in EU. Spread and introduction is banned if present on certain commodities.	x	
Fungous causative agents of plant diseases			
<i>Synchytrium endobioticum</i> (Schilb.) Percival	Regulated by the Plant Health Directive 2000/29/EC - Annex I All – Present in some MS of EU. Spread and introduction is banned. Regulated by control Directive 69/464/EC	x	Movement of plants only permitted from PFPP.
Viral causative agents of plant diseases			
Plum pox potyvirus	(Plum pox virus) Regulated by the Plant Health Directive 2000/29/EC - Annex II All – Occurs in the EU.	x	Annex IV All (point 16) Movement of plants

			<p>permitted from PFA.</p> <p>Movement of plants permitted if derived from virus free material or officially certified</p> <p>Movement of plants permitted if place of production is symptom free</p> <p>Movement of plants permitted if diseased plants rogued out.</p>
Nematode causative agents of plant diseases			
<i>Globodera rostochiensis</i> (Woll.) Behrens.	Regulated by the Plant Health Directive 2000/29/EC - Annex I All – Present in some MS of EU. Spread and introduction is banned. Regulated by control Directive 2007/33/EC	x	Movement of plants permitted from PFPP.

3. Plants of *Malus* Mill. intended for planting

Quarantine Harmful Organism (HO)	EU Status	Covered by EU Plant Passport	Movement Options
I. Quarantine objects absent in the territory of the Russian Federation			
Plant pests			
<i>Conotrachelus nenuphar</i> Hb.	Regulated by the Plant Health Directive 2000/29/EC - Annex I AI – Not present in EU	x	
<i>Ceratitis capitata</i> (Wied.)	Minor pest of <i>Malus</i> . Not regulated in EU but according to EPPO <i>Malus</i> plants not considered a host commodity. Present in some MS.		
<i>Rhagoletis pomonella</i> Walsh.	Regulated by the Plant Health Directive 2000/29/EC - Annex I AI – Not present in EU.	x	
<i>Popillia japonica</i> Newm.	Regulated by the Plant Health Directive 2000/29/EC - Annex I All – Spread and introduction is banned. According to EPPO only present in Portugal (Azores).	x	
Fungous causative agents of plant diseases			
<i>Phymatotrichopsis omnivora</i> (Duggar.) Henne-bert (<i>Phymatotrichum omnivorum</i> (Duggar))	Minor pest of <i>Malus domestica</i> . Not regulated in EU. According to EPPO this HO is not present in EU.		
Bacterial causative agents of plant diseases			
<i>Erwinia amylovora</i> (Burill.) Winslow et al.	Regulated by the Plant Health Directive 2000/29/EC - Annex II All and Annex II B (PZ) – Occurs in the EU, absent in PZ.	x	<p>Movement of plants to EU PZ permitted from PFA.</p> <p>Movement of plants to/within EU non-PZs permitted with GSI or removal of infected plants.</p> <p>Movement of plants from 'buffer zone' to a PZ also permitted.</p>
Viral causative agents of plant diseases			
Cherry rasp leaf nepovirus	(Cherry rasp leaf virus(American)) Regulated by the Plant Health Directive 2000/29/EC - Annex I AI – Not present in EU	x	Annex IVAI (import into Union & internal movement)(point 22.1) Movement of

			plants permitted if derived from virus free material or officially certified Movement of plants permitted if place of production is symptom free.
Nematode causative agents of plant diseases			
<i>Globodera pallida</i> (Stone) Behrens	Regulated by the Plant Health Directive 2000/29/EC - Annex I All – Present in some MS of EU. Spread and introduction is banned. Annex I B (PZ) – Absent in certain PZ. Regulated by control Directive 2007/33/EC	x	Movement of plants permitted from PFPP.
II. Quarantine objects, stenotopic in the territory of the Russian Federation			
Plant pests			
American <i>Hyphantria cunea</i> Drury	Not regulated in EU. According to EPPO <i>Hyphantria cunea</i> Drury present in some MS.		
<i>Grapholita molesta</i> Busck.	Not regulated in EU. According to EPPO present in some MS.		
Californian <i>Quadraspidiotus perniciosus</i> Comst.	Not regulated in EU. According to EPPO present in some MS.		
<i>Lymantria dispar</i> L. (Asian race)	Not regulated in EU. Asian race not present in EU.		
<i>Carposina niponensis</i> Wlsgh.	Regulated by the Plant Health Directive 2000/29/EC - Annex II AI –Not present in EU. Spread and introduction is banned if present on certain commodities.	x	
Fungous causative agents of plant diseases			
<i>Synchytrium endobioticum</i> (Schilb.) Percival	Regulated by the Plant Health Directive 2000/29/EC - Annex I All – Present in some MS of EU. Spread and introduction is banned. Regulated by control Directive 69/464/EC	x	Movement of plants only permitted from PFPP.
Nematode causative agents of plant diseases			
<i>Globodera rostochiensis</i> (Woll.) Behrens.	Regulated by the Plant Health Directive 2000/29/EC - Annex I All – Present in some MS of EU. Regulated by control Directive 2007/33/EC	x	Movement of plants permitted from PFPP.

KEY

PFA: Pest Free Area

PFPP: Pest Free Place of Production

PFPS: Pest Free Production Site

PZ: Protected Zones

Prepared by E2 – Plant Health, DG SANCO
