

STATUS OF NON-EU REGULATED RUSSIAN QUARANTINE ORGANISMS IN ITALY

Organisms not regulated by EU plant health legislation

Includes harmful organisms that are only regulated by EU protected zone legislation

Please indicate the status of the following harmful organisms, using the following terminology:

A = Absent, no pest records

B = Absent, confirmed by survey

C = Absent, eradicated

D = Present, widespread

D1 = Present, widespread, under official control

E = Present, limited distribution

E1 = Present, limited distribution, under official control

F = Present, under eradication

X = Present, no distribution details

Reporting Member State:		
Quarantine Harmful Organism (HO)	Status	Pest Free Area where applicable
I. Russian Federation List 1		
Plant pests		
<i>Callosobruchus</i> spp.	E	
<i>Trogoderma granarium</i> Ev.	E	
<i>Ceratitis capitata</i> (Wied.)	D (*)	
<i>Pseudauleacaspis pentagona</i> (Targ.-Toz)	E (*)	
Fungous causative agents of plant diseases		
<i>Stenocarpella macrospora</i> (Earle) Sutton (= <i>Diplodia macrospora</i> Earle)	A	
<i>Stenocarpella maydis</i> (Berkeley) Sutton (= <i>D. maydis</i> (Berkeley) Saccardo)	E	
<i>Phymatotrichopsis omnivora</i> Duggar Hennebert (<i>Phymatotrichum omnivorum</i> (Duggar))	A	
Plants		
<i>Iva axillaris</i> Pursh.	A	
<i>Ipomoea hederacea</i> L.	A	
<i>Ipomoea lacunose</i> L.	A	
<i>Solanum carolinense</i> L.	A	
<i>Solanum elaeagnifolium</i> Cav.	E	
<i>Helianthus ciliaris</i> DC.	A	

<i>Striga</i> spp (all types)	A	
<i>Cenchrus pauciflorus</i> Benth.	X	
<i>Bidens pilosa</i> L.	A	
II. Russian Federation List 2		
Plant pests		
American <i>Hyphantria cunea</i> Drury	E	
<i>Dendroctonus micans</i> Kug.	E	
<i>Monochamus urussovi</i> Fisch.	A	
<i>Grapholita molesta</i> Busck.	D (*)	
East Siberian <i>Monochamus impluviatus</i> Mot.	A	
Western (Californian) <i>Frankliniella occidentalis</i> Perg.	D (*)	
<i>Phthorimaea operculella</i> Zell.	E (*)	
Californian <i>Quadraspidiotus perniciosus</i> Comst.	D (*)	
<i>Monochamus sutor</i> L.	E	
<i>Lymantria dispar</i> L. (Asian race)	E	
<i>Bemisia tabaci</i> Gen.	D (*)	
<i>Monochamus galloprovincialis</i> Oliv.	E	
<i>Monochamus saltuarius</i> Gebl.	E	
Fungous causative agents of plant diseases		
<i>Diaporthe helianthi</i> Munt. Cvet. Et al. (= <i>Phomopsis helianthi</i> Munt. Cvet. Et al.)	E	
<i>Cochliobolus heterostrophus</i> Drechsler (= <i>Bipolaris maydis</i> (Nisikado) Shoem (race T)	X	
Plants		
<i>Ambrosia psilostachya</i> DC	E	
<i>Ambrosia artemisiifolia</i> L.	E	
<i>Ambrosia trifida</i> L	E	
<i>Acroptilon repens</i> DC.	A	
<i>Solanum rostratum</i> Dun.	A	
<i>Solanum triflorum</i> Nutt.	A	
<i>Cuscuta</i> spp.	X	

(*) pest under control according to the National guidelines for Integrated Production.
